

Heuristic Evaluation: Exercise

Human Computer Interaction

Luigi De Russis

Academic Year 2024/2025

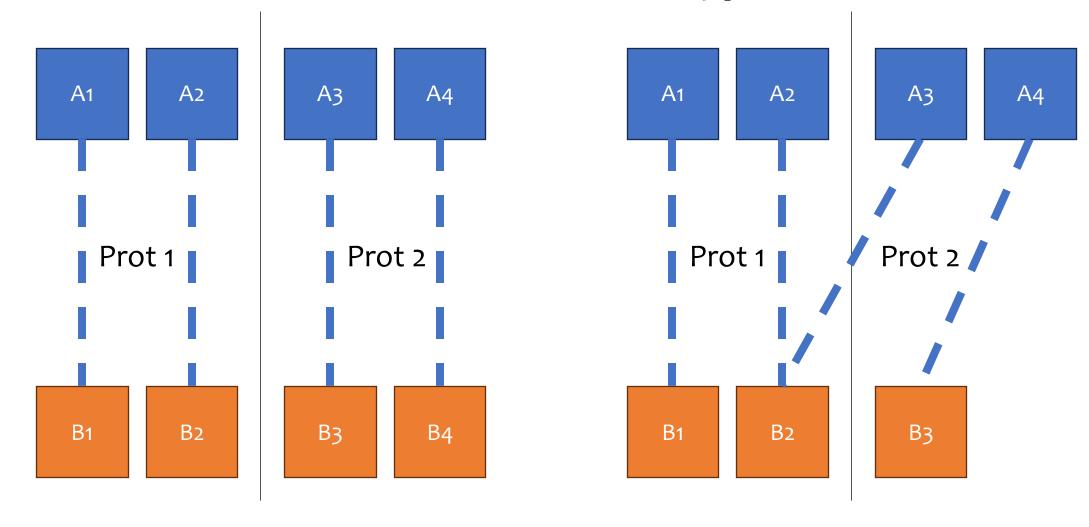

Administrativia

- Assignment 3 is out
 - \circ Due: November 26 EoD
 - Individual assignment!
- Last two weeks and it <u>cannot</u> be changed after the deadline
 It will be evaluated as you submit it

Administrativia: Evaluators, Prototypes, Teams

Goal

- Conduct an individual heuristic evaluation on a low-fi prototype from the 2022 edition of the course
- Share results with the class and reach an agreement

Recap: Phases of Heuristic Evaluation

- 1. Pre-evaluation training
 - Give evaluator information about the domain and the scenario to be evaluated
- 2. Evaluation
 - \circ Individual
- 3. Severity Rating
 - First, individually
 - Then, aggregate and find consensus
- 4. Debriefing
 - $\circ~$ Review with the design team

Recap: Evaluation (I)

- Define a set of tasks, that the evaluators should analyze
- For each task, the evaluator should step through the design several times, and inspect the UI elements
 - On the real design, or on a preliminary prototype
- At each step, check the design according to each of the heuristics
 - o 1st step, get a general feeling for the interaction flow and general scope
 - 2nd step (and following), focus on specific UI elements, knowing where they fit in the general picture

Recap: Evaluation (II)

- Where problems may be found
 - $\,\circ\,$ A single location in the UI
 - $\circ~$ Two or more locations that need to be compared
 - $\circ~$ Problem with the overall UI structure
 - \circ $\,$ Something is missing
 - May be due to prototype approximation
 - May still be unimplemented

Exercise

- Target prototype: RealDeal
 - Flow diagram: <u>https://polito-hci-2023.github.io/materials/slides/07b-exercise/realdeal-prototype.jpg</u>
 - BEWARE: pre-feedback!
 - **DO NOT** use it as an example of good prototype!
- Goal: to encourage people to <u>meet each other in person</u> by giving them some <u>offers and discounts</u> on places as «prizes»
- Tasks:
 - 1. Finding someone with common interests
 - 2. Getting a discount for a given place
 - 3. Adding a discount for your business

Exercise

- Phase 1: individual evaluation (~30 minutes)
 - \circ Select 1 task and try to perform it following the flow diagram
 - Keep the list of heuristics in front of you while performing the task and take notes
 - If you find usability problems (you will!), specify which heuristic(s) each problem you found is related to
 - Add a rating for each identified problem by applying Nielsen's severity ratings: 0 = not a problem, 1 = cosmetic, 2 = minor, 3 = major, 4 = usability catastrophe
 - Use the provided template as a guide for conducting the evaluation and taking notes

Exercise

Phase 2: aggregate and find consensus within your group (~10 minutes)
 O Use the same template linked in the previous slide to create a unified report
